

REMARKS

The Examiner restricted examination of claims 1-33 in this application. Specifically, the Examiner restricted claims 1-5 to Group I as being drawn to a method of manufacturing a memory device, claims 6-7 to Group II as being drawn to a method of operating a memory module, claims 8-14 to Group III as being drawn to a method of configuring a memory, claims 15-21 to Group IV as being drawn to a method of configuring a system, and claims 22-33 to Group V as being drawn to a memory module and a memory system comprising a memory module. Although Applicants do not necessarily agree with the Examiner's reasons for restriction, Applicants elect to prosecute claims 22-33 of Group V. Therefore, Applicants cancel claims 1-21 without prejudice for possible inclusion in a divisional application. Reconsideration of the present application as amended is respectfully requested.

If the Examiner believes that a telephonic interview will help speed this application toward issuance, the Examiner is invited to contact the undersigned at the telephone number listed below.

Respectfully submitted,
